

SPRING FLY CASTING CLINIC SATURDAY, APRIL 6, 2019

The day started out a little cloudy and chilly but warmed up quickly by late morning. There were at least 21 eager students that participated in the program. A lot was learned and everyone had a great time.

There was a welcome lunch break a little past 12 as everyone had worked up a big appetite and needed a break to rest their casting arm.

Keep an eye on the website as we are thinking of having another casting clinic in the near future.
